

QENERGY TERMS AND CONDITIONS

1. Our Market Contract

- 1.1. Through this Market Contract, QEnergy Limited (ACN 120 124 101 — “QEnergy”) agrees to sell electricity to you at one or more premises nominated by you (“**nominated premises**”) (or arrange other related services for you), and you agree to purchase electricity (or other services) from us.
- 1.2. The Market Contract consists of the Market Contract details schedule and these Terms and Conditions. Where you have nominated multiple *nominated premises*, this Market Contract takes effect as a separate contract for each *nominated premises* and the supply points will not be totalled to determine if you are a small market customer.
- 1.3. This Market Contract applies to you only if you are a small customer as defined in the electricity law in your state and under the National Energy Retail Law (NERL).

2. Starting and ending the Market Contract

- 2.1. **Commencement** Your QEnergy Market Contract for each *nominated premises* will start on the day stated on the details schedule.
- 2.2. This Market Contract has no fixed term and will only end after the earliest of the date:
 - a) you and QEnergy agree to terminate it;
 - b) QEnergy ceases to be the financially responsible market participant for the nominated premises under this Market Contract;
 - c) you enter into a new contract with us to supply electricity to the nominated premises;
 - d) another person enters into a new contract with us for the nominated premises;
 - e) you move out of the nominated premises and have paid our final bill;
 - f) the nominated premises have been disconnected for 10 Business Days and you do not have a right to be reconnected;
 - g) you notify us that you wish to terminate by providing 20 days’ notice in advance; or
 - h) we terminate in accordance with clause 8.
 - i) you elect to exercise your right of cool off in accordance with clause 2.3 below.

IMPORTANT NOTICE TO THE CONSUMER

- 2.3. **Cooling off** You have the right to cancel this agreement within 10 business days from the date after you received this document. For 10 business days after you receive this Market Contract and statutory disclosure statement for each *nominated premises*, you may reflect on your Market Contract for that *nominated premises*, and during this time you may cancel the Market Contract by notifying us orally or in writing, clearly stating your intention to cancel the contract. You have this right even if you had previously affirmed the contract. In that case, QEnergy would provide you with a record of the termination. Unless we had already started supplying electricity to you, you would not be charged any costs in that case. These provisions do not affect any other rights you may have in law or equity.
- 2.4. **Transferred account** Unless you are an existing customer, QEnergy will not start selling electricity to you until you have explicitly consented to transfer your account and your account is transferred to us for that *nominated premises* around the time of your next meter read and we become financially responsible for your supply to that premises. Under this Market Contract, you are authorising us to take any steps necessary to complete a transfer from your existing electricity retailer to QEnergy.
- 2.5. **Smart Meter** Access to your data benefits requires a Smart Meter (being a Type 4 digital metering device) at the nominated premises. If you do not have a Smart Meter at your nominated premises, we will arrange for a Meter Service Provider to change the meter and you agree to the Meter Service Provider making this change.
- 2.6. The timing of when the meter will be changed is subject to the Meter Service Provider’s schedule and regulations, however we will commence the meter change process as soon as we have the necessary information.

3. Electricity charges

- 3.1. **Charges** for the retail services and other services that may be supplied by QEnergy are set out on the Market Contract details schedule, or elsewhere in this Market Contract, together with dishonour charges if applicable under the laws of your State.

QENERGY TERMS AND CONDITIONS

- 3.2. **Network and meter service provider costs** Your costs of electricity from QEnergy include network and meter service provider charges levied by your network or meter service provider. Should these charges change during the term of the Market Contract these changes will be passed on to you (If you have nominated to pay by direct debit, you agree to pay QEnergy the revised charges by direct debit).
- 3.3. **Changes to law and regulatory funds** Some laws or regulation impacting on electricity supply — such as changes to any regulated environmental levies — may result in increased costs to QEnergy in purchasing your electricity. QEnergy may pass these increased costs on to you and you agree to pay these costs in full.
- 3.4. **Fixed Benefit Period** QEnergy will notify you of the end of any fixed benefit period applying to this Market Contract. This notice will be given between 20 business days and 40 business days before the end of any such fixed benefit.
- 3.5. **Changes to Charges** If you have selected a Variable Rate product, we may vary your electricity rates during the term of the Market Contract by giving you notice of this change before it comes into effect in accordance with applicable regulations. If there is a change that goes to the nature or structure of a tariff or charge for a *nominated premises* located in Victoria, you acknowledge that you have given explicit informed consent to the change to that tariff or charge for the Victorian premises.
- 3.6. Any charges for other services you may ask for — either through us or with a service provider, such as disconnection or reconnection, meter installations, meter tests or other services your network or meter service provider or other provider is entitled to charge for — will be passed through to you on your QEnergy bill. These charges will be shown separately (If you have nominated to pay by direct debit, you agree to pay QEnergy the revised charges by direct debit).
- 3.7. **GST** Where QEnergy incurs Goods and Services Tax (GST) on your behalf or provides you with goods or services under the *A New Tax System (Goods and Services Tax) Act 1999* you must pay GST in addition to the charge for those goods or services. This payment must be made simultaneously with all other charges noted in your bill, which will be a tax invoice.
- 3.8. **Peak and Off-Peak** Peak and Off-Peak tariffs will only be available to you if they are set out in the details schedule. If different tariffs are available, you may be eligible to transfer tariffs on written application to QEnergy.
4. **Solar Feed-in tariffs**

We may pay you a government regulated feed-in tariff and/or a voluntary feed-in tariff if there is a solar photovoltaic (PV) system installed at your nominated premises. If we pay you a voluntary feed-in tariff, we may vary the amount of, or cancel the feed-in tariff in accordance with the terms of your plan. A government regulated feed-in tariff may be varied or cancelled throughout the term of the contract as a result of your eligibility or changes in government regulations. We will give you notice of any change to your feed-in tariff as soon as practicable, but no later than your next bill after the change.
5. **Billing**
 - 5.1. **Metered consumption** Your distribution company or Meter Service Provider will read your meter at each *nominated premises (remotely if you have a smart meter)*, and you must give them safe access to your meter to allow them to do so. If an actual meter read cannot be obtained or there is a malfunction in your metering equipment then they may estimate your usage based on historical consumption. If they continue to be unable to access your meter, you will be charged for their costs, and ultimately, QEnergy may disconnect your supply at that *nominated premises*.
 - 5.2. **Self Read** If you receive a bill that is based on an *estimated meter read* and you are not satisfied that this bill reflects your actual electricity consumption, you may submit a *self-read meter read* completed in accordance with QEnergy's instructions (for instructions on how to complete a *self-read meter read*, please see our website at www.qenergy/meterreading.com.au). Upon receipt of a *self-read meter read*, QEnergy will re-issue the bill based on that reading.
 - 5.3. **Bills** QEnergy will use your meter read information to calculate the energy charges on your bill based on the costs set out in the Market Contract details schedule, and will invoice you any

QENERGY TERMS AND CONDITIONS

applicable GST. If you have contracted with QEnergy to supply electricity to multiple *nominated premises*, you may request separate bills for each *nominated premises*.

- 5.4. We will send your bills monthly by email if you have a smart meter, otherwise quarterly until you have a smart meter installed, and you undertake that you will provide us with a valid email address throughout the term of this contract.
- 5.5. Where it is not reasonable or reliable to rely upon a meter reading, you acknowledge that QEnergy may provide you with an estimated bill based on your previous consumption or in accordance with applicable regulatory instruments. Adjustments may be made in subsequent accounts once a reliable meter reading is available. The bill may also include unbilled charges from previous cycles, adjustments in relation to charges that were or should have been billed in the previous cycle or any other charges accrued to you at your *nominated premises*, including any costs associated with supplying you with electricity. You may request us to agree an instalments schedule for the adjustment amounts.
- 5.6. Where charges are changed under this contract within a billing period, consumption through the period will be prorated based on the total bill period length, and only consumption after the start date of the new charges will be billed at the revised charge.
- 5.7. The time for payment of the bill will be the due date specified on the bill.
- 5.8. **Corrections of previous charges** If you have been charged less than the amount you should have been charged on a bill or we have failed to bill you for a period, QEnergy can recover those charges on the next bill. This amount will be separately explained on your bill, and we will not recover charges earlier than the statutory timeframe prior to notifying you of the undercharging, except if the undercharging arises from your fault. If you need more time to pay this extra amount, please contact us as soon as possible on 1300 792 441 or email collections@qenergy.com.au. No interest will be payable on any corrected charge.
- 5.9. If QEnergy has charged you more than you should have been charged, we will tell you as soon as we become aware of this and will reimburse you in accordance with the law. No interest will be payable on the amount of that overcharge.
- 6. Enquiring about your bill**
 - 6.1. QEnergy is committed to making sure you have a good experience with us. If you have a query on any element of QEnergy's service, or you wish to ask a question about your account or your bill or request a replacement bill, or copies of historical bills, you can contact QEnergy on the customer hotline referred to in clause 11.3 to discuss your bill. If you want to question a bill, or raise a complaint, we will review it using our complaints process listed on our website <http://www.qenergy.com.au/Complaint-Handling>. While there is no charge for the review, you do need to pay for that part of the billed amount we both agree is payable, or the monthly average of the previous twelve months (whichever is lower). You must also continue to pay any future bills.
 - 6.2. If you are unsatisfied with our response to you, please feel free to ask for our decision to be reviewed by QEnergy's senior management under our complaints process listed on our website <http://www.qenergy.com.au/Complaint-Handling>.
 - 6.3. If we are still unable to resolve the issue satisfactorily, you may take the matter to the Energy Ombudsman in your state, who are contactable as below:
 - Energy and Water Ombudsman Queensland — phone 1800 662 837; post PO Box 3640 South Brisbane BC QLD 4101; and email info@ewoq.com.au;
 - Energy and Water Ombudsman of New South Wales — phone 1800 246 545 9am to 5pm Monday to Friday; post Reply Paid K1343, Haymarket NSW 1239; and email complaints@ewon.com.au;
 - Energy Industry Ombudsman South Australia — phone 1800 665 565 8:30am to 5pm Monday to Friday; post GPO Box 2947 Adelaide SA 5001; and email contact@ewosa.com.au;
 - Energy and Water Ombudsman Victoria – phone 1800 500 509; post GPO Box 469 Melbourne VIC 3009 and email ewovinfo@ewov.com.au.
 - 6.4. **Correction** If we find after an enquiry by you that your bill was incorrect and we have received your payment, QEnergy will correct the bill and refund you any overcharged amount. If the review shows the bill was correct, you agree to pay QEnergy (or if you pay by direct

QENERGY TERMS AND CONDITIONS

debit, QEnergy may debit your nominated bank account) the whole of any outstanding balance.

- 6.5. **Meter testing** You may ask for information about your meter readings and meter registration for each or any *nominated premises* and QEnergy will endeavour to provide this information as soon as practical. QEnergy may pass on to you its costs of collecting and releasing information regarding half hourly meter registration. If you are not satisfied with any bill review, you can also ask for your meter to be tested. Where the meter is found to be faulty or inaccurate, it will be repaired and there will be no charge for the test. If there is no fault with the meter, you agree to pay QEnergy (or if you pay by direct debit, QEnergy may debit your nominated bank account) the whole of any payment for the test as well as the outstanding balance of the bill.
- 6.6. **New meter Deployment** If we undertake a *new meter deployment other than*:
- At your request;
 - As a result of a meter malfunction; or
 - As a result of a maintenance replacement,*
- we will notify you before we propose to replace your *meter* and you will have the opportunity to opt out of any new meter deployment.

7. Payment

- 7.1. You agree to pay QEnergy the full amount indicated on your bill in full by the due date on your bill by BPAY, credit card, electronic funds transfer to QEnergy's Bank Account (as specified below at Clause 7.2) or by direct debit from your nominated bank account as set out below at clause 7.3; or
- 7.2. **QEnergy's Bank Account** All payments should be made to QEnergy's Bank Account as follows:

Bank Account Name:	QEnergy Limited
BSB:	013-414
Account Number:	8357-28075
Customer Reference Number:	«Reference_Number»

(If you are using electronic funds transfer, please insert only this Customer Reference Number into the payment reference field when you are making the payment otherwise QEnergy may not recognise this payment for your Market Contract).

- 7.3. **Paying By Direct Debit** If you have nominated to make payments by direct debit the following apply:
- Where the due date is not a business day your payment will be deducted from your account on the next business day.
 - If there are insufficient funds in your account on the due date, or you block the direct debit other than in accordance with this Market Contract, that will constitute a default by you and the provisions below apply as if you failed to make a payment when due.
 - QEnergy will hold your direct debit details in a secure location and not give them to a third party provider unless a valid claim is instigated. In that case details may be provided to our sponsor financial institution. You authorise us to release information to the Sponsor if they require in connection with a claim for an incorrect or wrongful debit.
 - You may notify us in writing by 20 business days' notice that you wish us to cease to rely upon the direct debit arrangement, and we will no longer rely upon your direct debit authority and your notice will effect a termination of this Market Contract from the twentieth business day after your notice is given. QEnergy will offer you a new Market Contract with terms and conditions applicable to payment by other means. QEnergy will also accept payments by you in advance of a bill.
- 7.4. **Trouble paying** If you are aware there will not be sufficient money in your nominated bank account or you are having difficulties paying your bill please contact us as soon as possible at least 5 business days before the next monthly payment is due on 1300 792 441 or email collections@qenergy.com.au. We will work with you on a payment plan to help you pay your bill, and we may be able to help you access Government relief if you are eligible to do so, or provide you with information about counselling or independent financial advice. In certain

QENERGY TERMS AND CONDITIONS

circumstances permitted under the National Energy Retail Rules, we may notify you that your billing cycle will be shortened until you have paid three consecutive billing cycles.

- 7.5. **Rate reset** If you fail to make payments as set out in clause 7 you agree that Qenergy may change the rate at which your energy is supplied and change your payment type to Post Paid. This means you would no longer qualify for the current rate and contract conditions.
- 7.6. **Reminder notice** If we do not receive payment of your bill by the due date and there is no agreement for a payment plan and/or insufficient funds in your nominated bank account, we may send you a reminder notice by email or in writing to make payment or apply for a payment plan (if the collection cycle is not shortened at the time in accordance with the law). The reminder notice will tell you about any Government funded rebate or relief you may be eligible to apply for. You agree to pay QEnergy for any costs we have incurred or are likely to incur which are reasonable costs of recovering the overdue amount to the extent they are payable under the laws of your state. The schedule of applicable charges is provided on QEnergy's website, www.qenergy.com.au/Frequently-Asked-Questions.
- 7.7. **Termination or Disconnection notice** If we still do not receive your payment within the time specified in the reminder notice, we will send you a disconnection notice by email or in writing indicating our intention to disconnect you in accordance with the law. If your request for a payment plan has been received before the disconnection notice, QEnergy will tell you the result before giving you the disconnection notice. QEnergy will not disconnect before the date specified in the notice. We will try to talk with you by telephone to assist you to resolve the issue, for example by helping you access Government relief if you are eligible to do so or offering you a payment plan.
- 7.8. We will retain all records of our contact with you.

8. Termination by us

- 8.1. **When termination may apply** QEnergy may terminate your Market Contract and disconnect your supply where:-
 - (a) **Non-payment of your account:**
 - (i) we have sent you the reminder notice and the disconnection notice and your account remains unpaid; and
 - (ii) we have given you the opportunity to rectify the default or agree and perform the settlement of any outstanding debt, we have met our statutory requirements to offer a payment plan and you have failed to enter into payment arrangements or you have failed to adhere to those arrangements; and
 - (iii) we have used our best endeavours to contact you; and
 - (iv) you no longer have any right to be reconnected; or
 - (b) **Security deposit** if you have failed to pay any security required for the connection services; or
 - (c) **Meter reading** if you have failed to give access to the premises or obstructed an authorised meter reader after due notice on three consecutive occasions and QEnergy has given you a disconnection notice and used its best endeavours to contact you; or
 - (d) **Illegal conduct or false information** the credit or other information you have supplied us is false or you illegally use energy.
- 8.2. QEnergy may also terminate this Market Contract:
 - (a) if a different retail customer contract with a different customer or a different retailer commences for the *nominated premises*;
 - (b) 10 days after your distributor or meter service provider disconnects your service for any reason and you have no right to re-energise.
- 8.3. **Restrictions on termination** QEnergy may not terminate your Market Contract in the following circumstances:
 - (a) on the grounds of your failure to pay charges owed to QEnergy under this Market Contract if you owe us less than the minimum disconnection amount in your state;
 - (b) if you are making payments to us as agreed under a payment plan;
 - (c) if you have an application pending for Government relief;

QENERGY TERMS AND CONDITIONS

- (d) a dispute or complaint has been made to QEnergy and remains unresolved in accordance with our dispute resolution policy;
 - (e) a dispute or complaint has been officially made to the energy ombudsman and remains unresolved;
 - (f) the money owed to us is for goods and services other than sale of energy; or
 - (g) during a protected period as defined by law;
- 8.4. Where QEnergy has procured your connection service on your behalf, and circumstances give us a right to disconnect under the customer connection services contract, disconnection may occur between 8am and 3pm Monday to Thursday (except during a protected period as defined by law).
- 8.5. If you have been disconnected and you remedy the reason for the disconnection or undertake certain steps to enable this to occur within 10 business days of the disconnection, you can request that we reconnect your supply. However, a reconnection fee may apply which QEnergy will pass through to you and you agree to pay QEnergy the whole of this amount.

9. Termination by you

- 9.1. **Early termination on notice** Your Market Contract with QEnergy will be terminated if any of the following occur:
- (a) you transfer to another retailer; or
 - (b) you provide us with 20 business days' notice, that you are terminating the Market Contract or requesting disconnection; or
 - (c) you enter into another Market Contract with us.
- 9.2. If you want us to terminate your Market Contract, we require at least 20 business days' notice and a forwarding address for your final bill. If you do not give us the required notice, you will be responsible for any electricity consumed at your *nominated premises* until another electricity retailer becomes responsible for supply or we enter into a Market Contract with the next occupant.
- 9.3. **Disconnection in advance** If you want us to disconnect your premises in advance of the termination of your Market Contract, we require at least the minimum disconnection notice time that your distributor or meter service provider may require or the time specified under the relevant law. We will take all reasonable steps to arrange disconnection as soon as possible and within the statutory time frame applicable to your locality. Although disconnection of the premises should mean no further energy is consumed, you will be responsible for the energy contract at your *nominated premises* until another electricity retailer becomes responsible for them; or we enter into a Market Contract with the next occupant.
- 9.4. **Final meter read** If you choose to terminate your Market Contract for any one or more *nominated premises*, we will use our best endeavours to have an authorised meter reader attend the premises at a time and date agreed with you, or in any event as soon as possible to do a final meter read and we will prepare a final bill based on that data. If you do not give safe access for this meter reading you will continue to be responsible for charges under this contract until the end of the notice period, when the meter is ultimately read, or when either a new customer or a new retailer has assumed responsibility for supply to these premises.
- 9.5. **Supply after the termination of contract.** If we continue to supply you with electricity after termination, that supply will be on the terms and conditions set out in this Market Contract subject to any variations about which we have notified you.

10. Retailer of Last Resort

- 10.1. In the unlikely event that QEnergy is unable to continue as your electricity retailer and it becomes necessary to transfer you to a retailer of last resort for that *nominated premises*, you authorise QEnergy to provide all necessary information to the retailer of last resort for your transfer and implementation of electricity supply. You authorise QEnergy to undertake this transfer and to do anything else necessary to implement and arrange your supply by the retailer of last resort.
- 10.2. You must pay QEnergy for any costs and charges pertaining to the transfer as well as for the electricity supplied, but only where this is agreed between QEnergy and the retailer of last report and notified to you in writing or by way of email. You are not liable to make any

QENERGY TERMS AND CONDITIONS

payment to QEnergy if you have already made that payment to the retailer of last resort or if you enter into the contract directly with the retailer of last resort.

11. Service standards

- 11.1. **Minimum service standards** The reliability and quality of the supply of electricity will be determined under your customer connection services contract which will specify permitted interruptions and times in which interruptions will be remedied.
- 11.2. **Guaranteed customer service standards** The customer hotline operates for the price of a local call (1300 698 992). This number operates to receive notice of and give information concerning any faults and difficulties with electrical works.
- 11.3. Customers may also call 1300 698 992 between 8am and 6pm on a business day to discuss bills or connection issues.

12. Communications and notifications

- 12.1. If you have any questions on anything relating to your electricity supply, or would like to talk to us about your experience with QEnergy, you can contact us by:

- email at service@qenergy.com.au.
- phone on 1300 698 992
- fax on 1300 887 162; or
- post at PO Box 3043 South Brisbane Queensland 4101

If you need the help of an interpreter service, please call 131 450. A copy of this Market Contract will be provided to you in accordance with the law.

- 12.2. **Notices** QEnergy will generally send you information at your nominated email address. Notices may also be sent to your premises address (and will be deemed to be received 2 business days after posting) or given to you by hand. We may also need to reach you by telephone. It is important that you let us know if there is any change to your contact details. You should also contact us if you have special supply needs to discuss the process of having your premises registered.
- 12.3. **Variation** Subject to the laws in your state, or as stated in these Terms and Conditions, this Market Contract or any customer connection services contract QEnergy procures for you, may be varied in respect of one or more *nominated premises*:
- (a) by signed written agreement with you which may be in the form of an email exchange. To the extent that changes to some of the terms of this contract have been already identified and explicitly approved by you, then subject to any requirements of the Australian Consumer Law these changes will not be treated as variations to the agreement;
 - (b) by written notice to you as required to comply with any applicable law;
 - (c) by notice to you of changes to the charges and fees in accordance with clause 3.5 of this Market Contract.
 - (d) by your oral consent upon entering into this agreement, you give explicit informed consent to this provision.

13. Other obligations

- 13.1. **Distribution service** Your electricity network provider (distributor) is responsible for delivering electricity to your premises and for the quality and continuity of that supply and this will be set out in the customer connection service contract. If you have a problem with your network supply — either the service itself or work done that disrupts that service — QEnergy will assist you to resolve that with your distributor as soon as reasonably practicable.
- 13.2. **Meter service** Your meter service provider is responsible for your metering equipment at each *nominated premises* although QEnergy may arrange changes to this equipment on your behalf at your request (in which case you agree to pay QEnergy for any costs associated with these changes in full).
- 13.3. You are responsible for exercising reasonable care of metering equipment installed at your *nominated premises*, and not taking action that would interfere with the equipment or its ability to measure electricity.
- 13.4. **Confidentiality** QEnergy commits to keeping any information about you in your Market Contract confidential. We will only disclose information that we have about you to the extent specifically required by law (such as to regulatory bodies or market institutions), or for the

QENERGY TERMS AND CONDITIONS

purposes of this agreement (such as in connection with any query or claim), or to any service providers QEnergy may use to operate this agreement.

- 13.5. **Privacy** QEnergy may give information about you to a credit reporting agency, external credit collector or credit provider for the following purposes:
- (a) to use the information for the purposes permitted under the *Privacy Act 1988* and credit reporting laws;
 - (b) to obtain a consumer credit report about you;
 - (c) to allow the credit reporting agency to create or maintain a credit information file containing information about you. This information includes identity particulars, contact address, accounts that are overdue by more than 60 days and for which debt collection action has started, and the fact that QEnergy is a current credit provider to you. You agree to QEnergy obtaining a consumer credit report about you from a credit reporting agency for the purpose of collecting overdue payments on commercial credit, in accordance with the *Privacy Act 1988*; or
 - (d) to facilitate external credit collection in the event of non-payment of outstanding amounts.
- 13.6. **Energy efficiency** If you request, we will provide you, free of charge, with information about efficient energy consumption. See <http://www.qenergy.com.au/Ways-To-Save> for advice on how to save electricity.
- 13.7. **Applicable Laws** This Market Contract will be governed by the laws of the state in which your *nominated premises* is located. Both you and QEnergy must comply with all relevant requirements imposed by the electricity laws, regulations and codes of your State as well as standard industry practice. The Applicable Laws with which QEnergy and this Market Contract comply include:
- National Energy Retail Law, National Electricity Retail Rules and National Energy Retail Regulations as adopted in each state.
 - Queensland — Electricity Act 1994; Electricity Regulation 2006; Electricity Industry Code until it is superseded by National Energy Retail Law (Queensland) Act.
 - New South Wales — Electricity Supply Act 1995; Electricity Supply (General) Regulations 2001.
 - South Australia — Electricity Act 1996; Electricity (General) Regulations 1997; Energy Retail Code.
 - Victoria – Electricity Industry Act 2000.
- You can find a copy of this legislation on our website <http://www.qenergy.com.au/Codes-And-Guidelines>
- 13.8. **Limitation of liability** Except as required by law, we give no warranty or undertaking, and we make no representation to you about the condition or suitability of electricity sold under this Market Contract, or electricity quality, fitness for purpose or safety other than as set out in this Market Contract.
- 13.9. So far as the law allows, except as a result of our breach of contract or negligence or bad faith, QEnergy is not liable to you for any loss or damage you suffer as a result of total or partial failure to supply electricity to your premises, because of the electricity we sell to you under this Market Contract or because of a failure or defect in the electricity supply or its characteristics, or if the supply is not suitable for your purpose. As an energy retailer, QEnergy has no control over production, generation or distribution of energy. By supplying you with energy, QEnergy is arranging for supply or connection by your Distributor or meter service provider. Your Distributor or meter service provider will connect and physically deliver energy to your premises. QEnergy is not able to affect the quality or reliability of electricity supply. Further, weather conditions, accidents, emergencies, vandalism, system demand, and technical issues may affect the ability of your Distributor to physically deliver the energy to your premises from time to time. Any liability QEnergy may have to you under the *Competition and Consumer Act 2001* for express or implied warranties or consumer guarantees is, to the extent permitted by law, in respect of supply of goods other than for domestic or household use is limited to providing equivalent energy supply to your *nominated premises* or

QENERGY TERMS AND CONDITIONS

paying the costs of replacing the energy supply or acquiring a similar energy supply for your premises.

Without limiting QEnergy's rights in other provisions of this agreement, you acknowledge that QEnergy, your distributor or meter service provider may disconnect, curtail, interrupt or reduce the energy sold to you under this agreement to the extent necessary if:

- (a) required by your Distributor or meter service provider;
- (b) required under this agreement or your energy plan;
- (c) in an emergency or for safety reasons;
- (d) for inspection, maintenance or testing;
- (e) at the request of a regulatory body or as required by law.

To the extent permitted at common law (including equity) and so far the National Energy Retail Rules allows, you indemnify QEnergy and hold us harmless against any liability arising from your breach of the Market Contract or your negligence in relation to your obligations under the Market Contract but only to the extent that QEnergy would be able to recover at common law for breach of contract or negligence.

- 13.10. **Force Majeure** A party must promptly notify the other party if any force majeure event occurs, and must take steps to remove, overcome or minimise the effects of that event. QEnergy is not liable to you where the interruption to supply was to carry out emergency works or in circumstances beyond QEnergy's control.
- 13.11. **Assignment** You consent to QEnergy assigning the whole or any part of our interest in this Market Contract to anyone acquiring the assets of our business.
